Subject Line: Help [School District name] Compete for a grant of up to \$25,000

HEAD: **Keep Rural Schools Growing**

America's Farmers Grow Rural Education, sponsored by the Monsanto Fund, gives rural public school districts the opportunity to compete for grants of \$10,000 or \$25,000 for crucial science and math programs. Eligible farmers can nominate local public school districts for a grant. So, ask all of the local farmers you know to **nominate our school today**.

Farmers have the opportunity to keep rural schools growing by nominating the local public school district of their choice to apply for a grant. In 2018, the Monsanto Fund will again award up to \$2.3 million to rural school districts.

Grant applications will be judged based on merit, need and community support. The more farmers we have nominate our school district, the more it demonstrates community support and can help strengthen our application.

For additional information about the program, visit www.GrowRuralEducation.com.
